## Think Adventure

---

JETOUR believes that a vehicle goes beyond daily drives, reflecting your personality and lifestyle. T2 is also a reliable friend for new adventures and exploration.

# T2

As the first off-road vehicle of JETOUR, T2 is impressive with its robust design. Equipped with the advanced XWD system, strong Kunpeng power and the leading Snapdragon 8155 Smart Chip, T2 delivers a remarkable driving experience.

As a reliable friend, T2 personifies Adventure. Life is an ongoing adventure: each path taken, every person met, and all sceneries encountered urge you to discover unexpected wonders.

We don't recommend pushing T2 to extremes. Designed for daily off-road activities, T2 is not just about conquering the wild, but providing a sense of freedom..

---

## Brilliant Design, Impressive T2

We devote ourselves to every detail of T2. You would be definitely impressed with T2 stylish exterior and exquisite spacious interior. This perfect blend of elegance and power will truly impress you.

## More Bold, More Striking

T2 is outstanding with its hardcore styling, classic design, and dynamic grille. The VHDL (Vertical and Horizontal Design Language) gives it a commanding presence. Its dynamic light-shadow grille merges toughness with softness. The straight-through tail lights stand out, adaptable to all harsh conditions. The rectangular steering wheel and robust handles showcase the beauty of strength.

With its dimensions of 4785×2006×1880 mm and a 2800mm extra-long wheel-base, T2 offers exceptional legroom for driving comfort. With over fifty storage areas and a convertible second-row for a unique camping space, the thoughtfully designed interior delivers a roomy and versatile experience, standing out in its category.

## Every Journey, Begins with Joy

Adventure and delight have always been together. We recognize your attention to every detail, from eco-friendly materials to ultimate silence,

premium sound systems and exceptional safety. That's why we've never stopped striving to ensure every journey with T2 is filled with pleasure.

Healthy cockpit

Steel cage body structure

Kunpeng Power 2.0 TGDI

## Excellence for Every Quest

100+ eco-friendly materials boost anti-bacterial and odor-free standards, offering a baby-safe cabin with CN95 filters. Relish the silence with multi-layered soundproof glass, perfect for undisturbed calls or rest, away from urban noise. Enjoy a 12-channel SONY top audio configuration for immersive 360 ° stereo surround sound. Also, 50W wireless fast-charging keeps your devices powered effortlessly.

## Caring Protection, Peaceful Journey

Drive T2, enjoy peace of mind. Its body torsional stiffness of 31000Nm/deg means less deformation and more stability in impacts. Up to 80% high-strength steel in its composition helps disperse collision forces, reducing the risk of secondary injuries.

## Dynamic Power, Embrace Freedom

Kunpeng Power 2.0TGDI delivers T2 an output power of 187kW and a torque of 390N.m, matched with Magna 7DCT for lower fuel consumption and stronger power. Savor the exhilarating speed and passion of every drive.

## Intelligent Tech, Journey Enriched

Focusing on the driver, T2 enhances every journey with intelligence, shifting from self-control to smart command. Even on bustling streets or rolling hills, intelligent tech ensures a smooth ride, enriching every view, every time.

## Smart Control , Effortless Driving

Technology elevates T2 with the Qualcomm Snapdragon 8155 Chip, boosting 8 trillion calculations per second from its 7nm process. The UI/UE interface delivers smooth operation, complemented by millisecond-responsive, full-scene intelligent voice control. The 15.6-inch central screen ensures precise touch control and enriches movie viewing.

## Intelligent Driving, Safety Ensured

Intelligent driving ensures safety in T2. It features L2 driving assistance systems like FCW (Forward Collision Warning), LDW (Lane Departure Warning), BSD (Blind Spot Detection), and a suite of other functions, all ensuring a safe driving experience. Moreover, equipped with 360° panoramic image and 180 ° transparent car bottom, T2 provides a comprehensive perspective for navigating obstacles with ease.

High passability across all road conditions

## XWD Enhances Off-Roading Fun

We believe that off-roading isn't just for the few, and T2 makes it accessible to many. Equipped with the XWD, it is ideal for off-road beginners. Featuring BorgWarner's sixth-generation intelligent torque management and an intelligent limited slip differential lock, T2 supports switchable four-wheel drive modes, rear-wheel torque distribution, and intelligent power output, among other high-tech features.

The "6+X" driving mode includes "S Sport, N Standard, E Economy, Snow, Grass, Mud, Rock". Additionally, the special "X Mode" intelligently adapts to road conditions to ensure the best driving status all the time.

The intelligent creeping mode in T2 navigates harsh terrain at a low speed to avoid slipping and getting stuck. With a 28° approach angle, 30° departure angle, 220mm minimum ground clearance, and a 700mm wading depth, it ensures all-terrain capability.

Intelligent limited slip differential lock  
Intelligent and real-time adjustment of torque between the left and right wheels of the rear axle to achieve "ultra strong four-wheel drive" while balancing sports performance

Intelligent torque manager

Capable of actively and timely transmitting torque from the front axle to the rear axle to achieve intelligent four-wheel drive function
